BECOMING A QUALIFIED DISC® AMBASSADOR

FACE TO FACE OR VIRTUAL QUALIFICATION

What is a DiSCovering Ambassador ?

A DiSCovering ambassador is a new role in the DiSC Community that will allow you to inform, explain and share your concrete experience with different DiSC profiles.

How to become a DiSCovering Ambassador ?

A 3 steps process, easy to follow, in order to become the local champion and the trusted advisor.

Step 1 : Learn the DiSC foundations

1 hour (face to face or virtual) introduction training to DiSC®

Step 2 : Discover your own profile (2 complementary profiles)

- DiSC 2.0 (graph based) - 23 pages : your profile + 15 standard descriptions of standard profiles
- Everything DiSC (ED) Management Profile (color circle and dot based) - interacting and managing with others

Step 3 : Share and coach others to discover their profile

Use your own EPIC sub-account and get familiar with processing web-based profiles

- Select the appropriate profile
- Send invitations and url to others
- Generate profiles immediately

Explain, debrief and become a DiSC ambassador with impact

After these 3 easy steps, you'll be fully allowed, empowered and able to manage thru your personalized EPIC sub account the process of DiSC profiling

More than 14 profiles will then be at your disposal to fulfill the needs and goals of your audience.

What will I receive during or upon completion of my qualification ?

During step 1 & 2

- DiSC 2.0 Profile
- ED DiSC Management Profile

During step 3 :

- EPIC Brochure
- EPIC Quick Start Guide
- EPIC User Guide
- Discovering product and price list

What's the investment for me ?

The total investment to become a qualified Discovering Ambassador (steps 1-3, material, support, ...) is 495,00 Eur (VATexcl).

The Discovering team of experts will stay at your disposal for any question regarding the EPIC platform or the DiSC profiles (choice, debriefing, content explanations, ...).

What is DiSC 2.0 ?

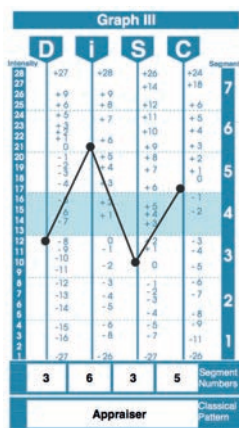

The original DiSC profile with the assessment and results delivered online.

This profile is often used by ambassadors with previous experience with DiSC® Classic or by individuals for their own uses such as preparing for a job interview or for self-awareness. **The Group Culture Report** and **Facilitator Report** are available with this online version. Profile is for one person.

Uses : Professional development, career development, personal coaching, communication, customer service, conflict management, team building and more.

DiSC Classic can also help personnel at all levels

- understand their preferences, strengths, and growth areas
- appreciate personal diversity
- develop a common language to discuss personal styles
- create a dialogue about personal preferences, frustrations, and differences
- relate to those around them

More specifically, managers and ambassadors learn:

- Their DiSC Management Style: How DiSC affects management style, examining their priorities as managers.
- Directing and Delegating: Their strengths and challenges when directing and delegating.
- Motivating Others: How DiSC styles influence how people are motivated.
- Developing Others: Their natural styles of developing others.
- Working with Your Manager: To influence and communicate effectively with their managers by meeting their DiSC needs and preferences.

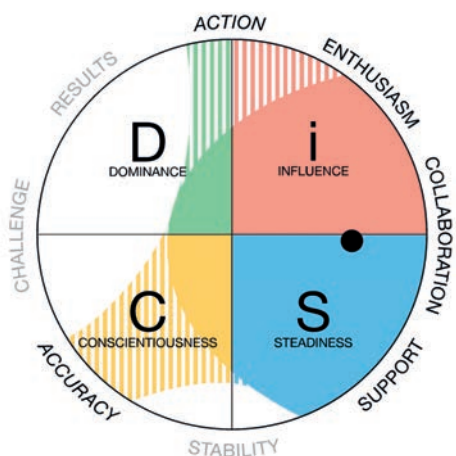

What is EPIC?

EPIC is an online system for managing DiSC profiles. EPIC allows you to create access codes, which act like reservations to take assessments. These reservations can be created individually or in bulk. Once created, they can be sent via email. EPIC can also generate group reports using the data from completed assessments. All profiles and group reports are archived EPIC online in your own private account

What is Everything DiSC Management ?

The Everything DiSC® Management Profile teaches managers and ambassadors how to bring out the best in each employee. Personalized learning helps managers and ambassadors develop their management style, improve communication and increase employee engagement.

EPIC operates on EPIC credits. EPIC credits can be purchased in bulk and then used to create assessments and add-on reports. The credit system provides flexibility since EPIC credits can be used to create any online profile or report. If some assessments are created but then aren't used, simply release the unused access codes and the EPIC credits are re-deposited into your account. No waste!

You can add your company logo and contact information to every profile and even the home screen where respondents go to take the assessments. Customize reports by deleting or re-arranging sections--even change the report title. Profiles and reports will always look generated from YOUR platform.

Discovering Event Qualification or Certification Registration

Please complete the registration form (one form per participant) and return by email at info@discovering.be
